EARLY STAGE RESEARCHER (PH.D. STUDENT) POSITION

FP7 INITIAL TRAINING NETWORK "UNILHC"

The Institute of Theoretical Physics, University of Warsaw, Poland announces the opening of an **Early Stage Researcher (ESR) position in Theoretical Particle Physics**, financed by the European Union FP7 ITN program "UNILHC - Unification in the LHC era". ESR are defined as those in the first four years (full-time equivalent) of their research careers, starting at the date of obtaining the Master degree (M.Sc.) which would formally entitle them to embark on a doctorate. The duration of the appointment will be **three years**, and the **starting date must be between September 1 and October 1, 2010**. The ESR is expected to defend a Ph.D. Thesis at the end of his/her employment. The financial conditions will be those of a type-A ESR contract according to Annex III of the EU FP7 'People' Work Programme. Polish nationals cannot apply.

The deadline for applications is March 15, 2010. Applications after the deadline might be considered until when the position is assigned. A letter of application, a CV (including a short description of research interests) and two recommendation letters should be sent, by e-mail and in PDF format, to: `pokorski@fuw.edu.pl`

More information on the UNILHC Initial Training Network, and on the rules for the appointment of Early Stage Researchers, can be found at the network webpage: http://www.cpht.polytechnique.fr/rtn_aef/Web_page_UNILHC/itn.html

The ESR will work with S. Pokorski, the head of the Warsaw group, under his direct supervision. More information on the Warsaw Institute of Theoretical Physics can be found at the webpage: <http://www.fuw.edu.pl/institute-of-theoretical-physics.html>
